

Doodle_Draw_Graphic_Effect

Open your image and duplicate twice. Your image size should be < 3000 px

Select the upper layer, go to Filters – Gmic – Artistic – Doodle. Output to a new layer.

Set the doodle layer at HSV Value

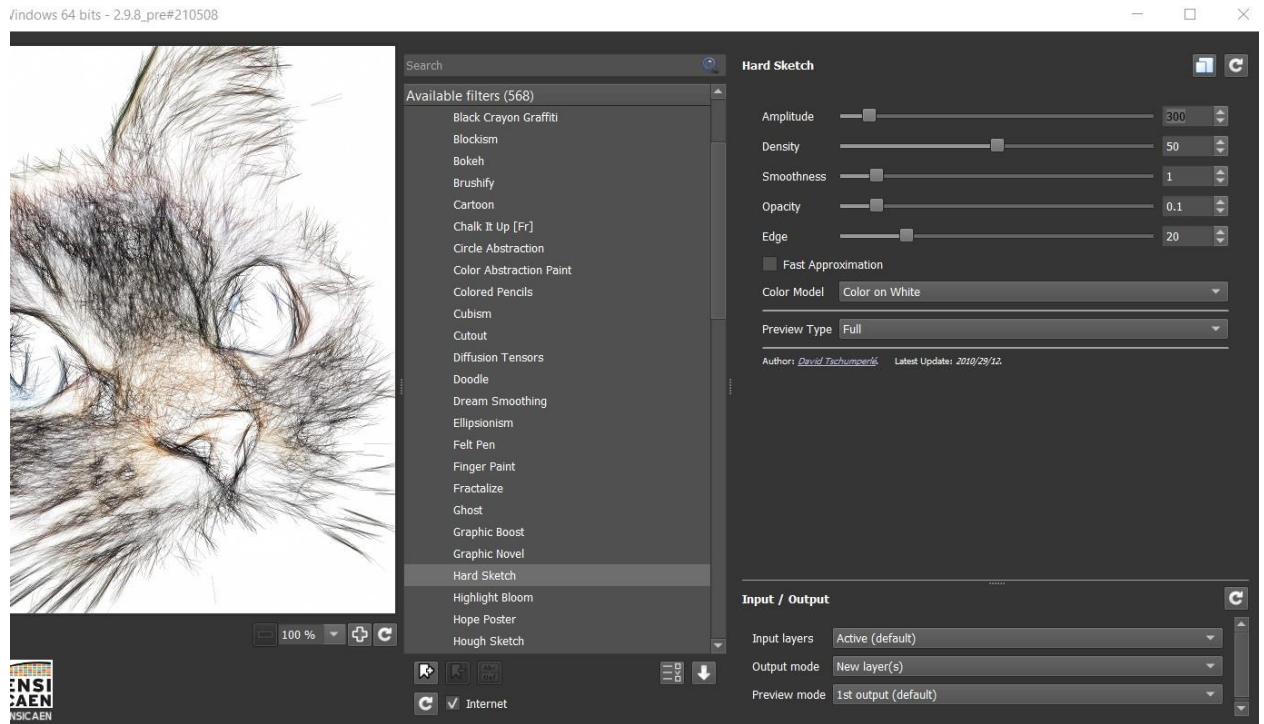

New from visible

Close eyes to the layers and open an original image copy

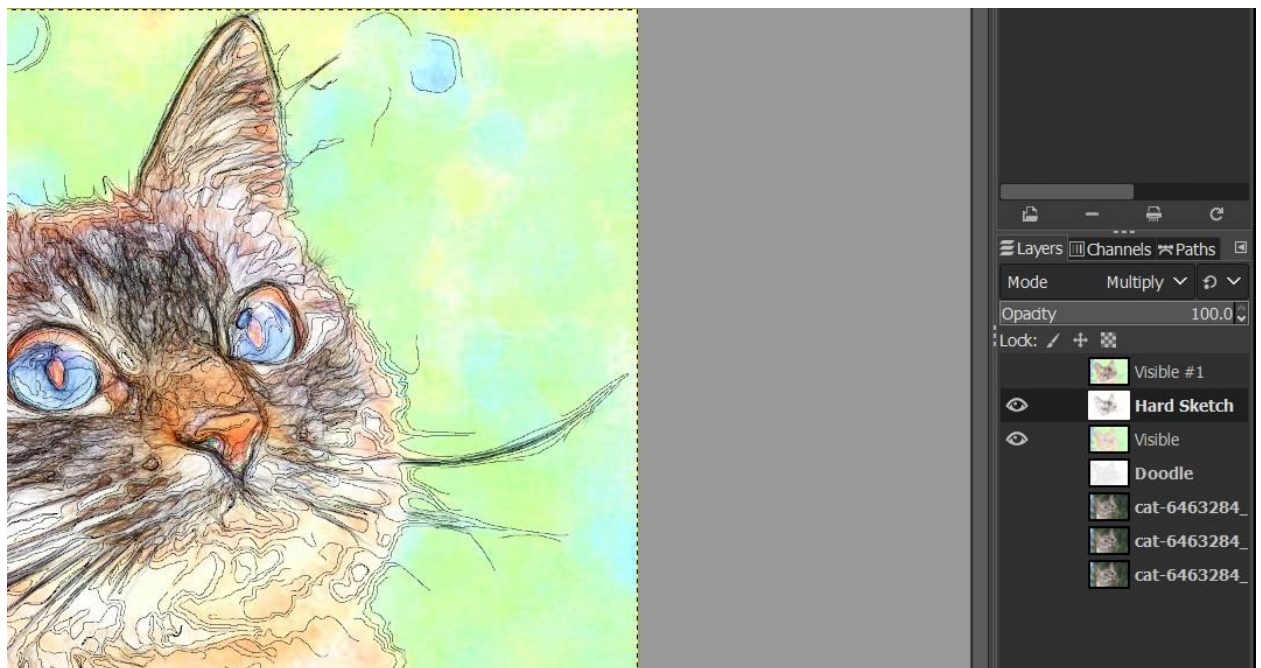

Go to Filters – Artistic – Hard sketch. Output to a new layer.

Open eye to the visible layer

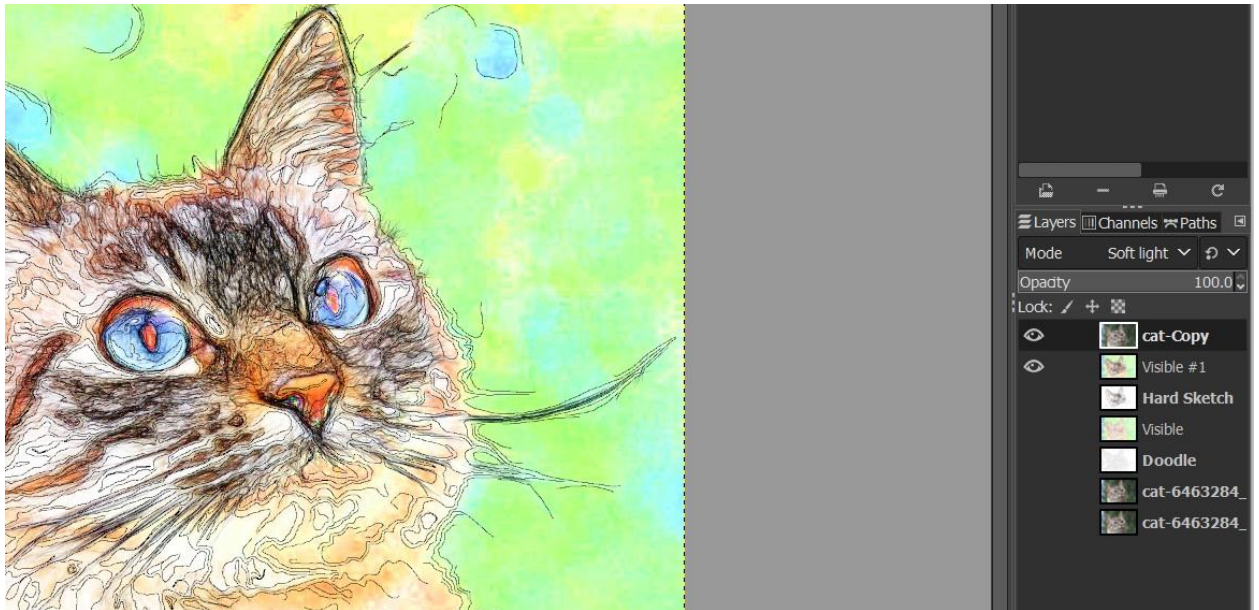

Set the Hard Sketch layer at Multiply as layer mode with Visible

New from visible, again

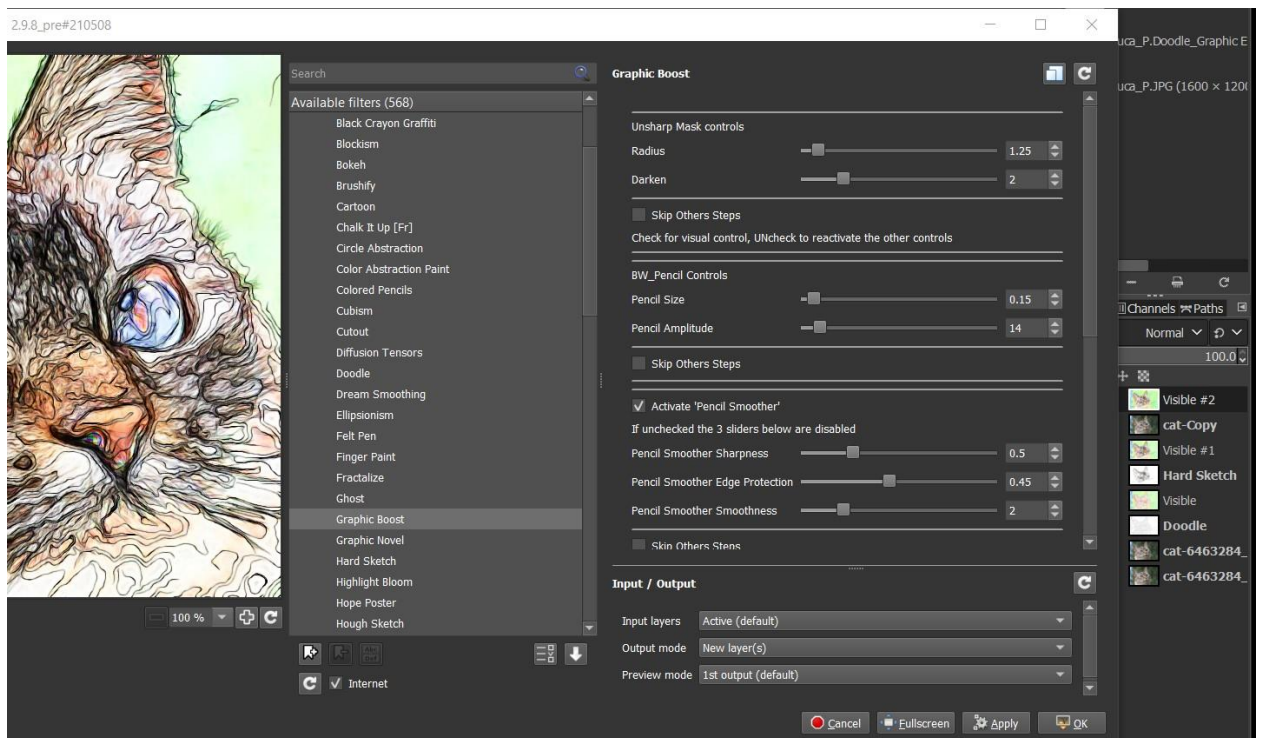

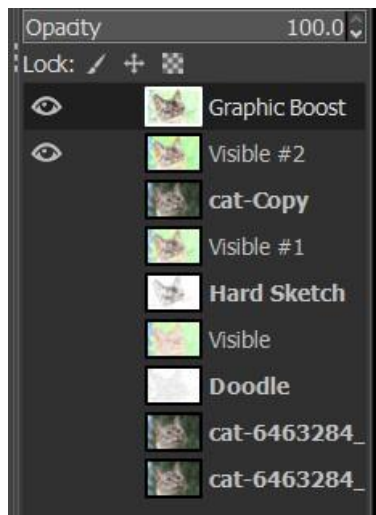

Set an original image copy upper the layers and set it at Soft Light as layer mode.

And new from visible one more time.

Go to Filters – Gmic – Artistic – Graphic Boost

Final look

Enjoy the process
